

HS208MK2

Full range horn speaker 8"

Highlights:

- IP54 Ingress protection
- 8" high output woofer with a 1.3" voice coil
- Multi-Layer glass composite material with textured EPDM black coating
- Weatherproof speakON connector

The AUDAC HS208MK2 is a full-range loudspeaker system engineered to provide long throw, full range sound projection in a variety of fixed in- and outdoor applications. Its wide, smooth frequency response and high efficiency ensure high-fidelity music reproduction along with superb projection of clear, intelligible speech at very low distortion. The HS208MK2 features a 1,3" HF driver with an 8" LF loudspeaker combination for the best sound reproduction and has a very special coverage pattern of 40° horizontally and vertically. The construction of the HS208MK2 is made of polyester with textured EDPM black coating and a perforated aluminum grill front finish. Behind the aluminum grill, there is an acoustic foam assembled, which prevents rain coming into the speaker. Due to an Ingress Protection rating (IP) of 54, this speaker is suitable for any environment where humidity or moisture are present. For connecting, two speaker connectors are provided. The second connector can be used for linking through the signal to other speaker cabinets. Mounting brackets: - MBK208Z

Applications:

- Corporate spaces
- Sport facilities
- Events

Certification:

Impedance:

System specifications:

Speaker type		2-way horn speaker
Max. Power		300 W
RMS Power		150 W
Impedance		8 Ω
Sensitivity (1W/1m)		97 dB
Sound Pressure (Max. W/1m)		123 dB
Frequency	Response (\pm 3 dB)	100 Hz - 18 kHz
	Range (-10 dB)	70 Hz - 20 kHz
Crossover	Frequency	1.5 kHz
	Type	Passive built-in
Dispersion	Horizontal	40°
	Vertical	40°
Ingress Protection rating		IP54
Connection		2 x heavy-duty SpeakON NLT4MPBAG (linkthrough)
Drivers	HF	1.3" Compression driver
	MF	8"

Product Features:

Dimensions	360 x 360 x 482 mm (W x H x D)
Weight	11.600 kg
Construction	Multi-Layer glass composite material with textured EPDM black coating
Front finish	Powdercoated aluminium with lining
Mounting & handling	Mounting bracket fixing holes
Colours	Black (RAL9005)

Shipping & Ordering:

Packaging	Cardboard box	
Shipping weight & volume	15.760 kg - 0.100 Cbm	
Accessories	Optional	MBK208Z Wall mounting bracket

Architects' and Engineers' Specifications:

The speaker shall be a 2-way horn-loaded system providing a long-throw full range sound projection with following dimensions H 360 x W 360 x D 482 mm. The weight shall not exceed 14 kg. The enclosure shall be constructed out of multi-layer glass composite material with a durable scratch resistant EPDM coating and fitted with an aluminium front grill.

It shall have an RMS power handling of 150 Watt with a maximum power handling of 300 Watt and the frequency response (-10 dB) shall range from 70 Hz to 20 kHz. The sensitivity shall be 97 dB when measuring with an input signal of 1 Watt at a distance of 1 meter, while the maximum continuous sound pressure level shall achieve 123 dB.

The loudspeaker shall consist of a 1.3" HF compression driver and a 8" medium frequency range loudspeaker. The speaker has an impedance of 8 Ohm and contains a passive built-in crossover network with crossover frequency of 1.5 kHz which is constructed of high-quality components. It shall also have an integrated tweeter overload protection circuit. The compression driver shall be mounted on a 40° x 40° coverage horn which is coaxially constructed as one entity with the loudspeakers enclosure. Connections

with the speaker shall be made using heavy-duty SpeakON connectors.

The connectors shall be fitted with waterproof gaskets and an acoustical transparent and water eliminating lining should be provided behind the grill to make the system IP54 rated.
